## Welcome to

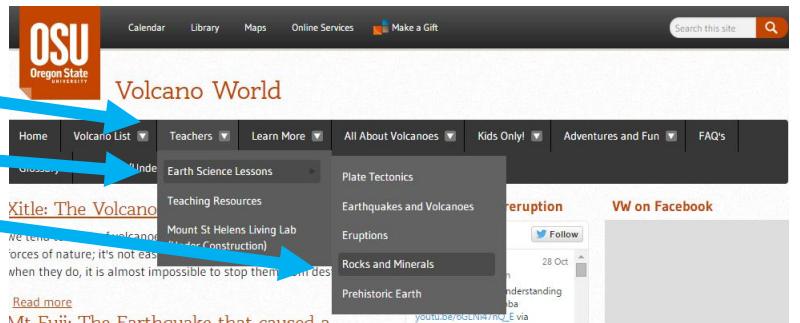

Here is a website that has information that we will be using in class.  
First go to the following website: <http://volcano.oregonstate.edu/>

Then use the PULL down menu under **TEACHERS**:

**EARTHSCIENCE LESSONS**

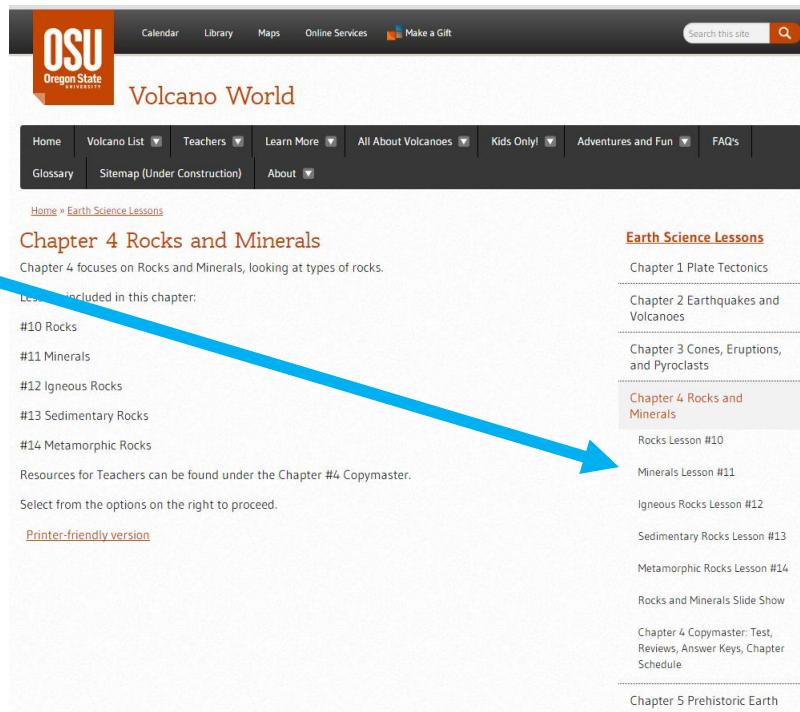

**ROCKS and MINERALS**

This will take you to the lesson page:

Here you can find Minerals:

Click on that and read the information provided. Then answer the questions at the end of the section.

## Mineral Lesson #11

*Write the answers to the following questions in complete sentences on a piece of paper.*

1. What is a mineral?
2. What are the physical properties of minerals?
3. What eight elements make up over 98% of the Earth's crust?
4. Write a paragraph describing the properties and human uses for one of the minerals that you studied in this lesson.
